Thermally Modified Structural Wood

EcoVantage will coat StayTru with Cutek for use when constructing docks or piers to reduce surface checking and cracking. EcoVantage recommends a second coat of Cutek with an oil based U.V. protectant stain to reduce greying over time. EcoVantage does not endorse, warranty or recommend any specific coating manufacturer. However, Cutek has proven to reduce surface checking and cracking. Applying a second coat of Cutek with an oil-based UV protectant coating will yield the best results (without oil based UV protectant, wood will grey over time).

EcoVantage offers pre-staining as a custom service!

Thermally Modified Premium Wood Solutions

Premium Structural Wood Material

Most of us enjoy the beauty and warmth of natural wood until we put it outdoors, then it begins to warp, twist, cup, and rot. Long ago the Vikings learned to over come this problem by treating the wood with fire, which in turn made it more resistant to the elements.

Today we use a combination of heat and steam to modify natural wood. This modification creates a decay, rot, insect and mold resistant wood. This patented process turns natural wood into a weather resistant product that resists warping, cupping, and twisting once exposed to the elements.

Using this process, EcoVantage takes #1 grade, S.S. or better Southern Yellow Pine and converts it to the StayTru product. Our process enhances the already structurally superior wood. The enhanced properties make StayTru the preferred structural wood material for outdoor use.

Because our wood does not use any chemicals, StayTru is a non-corrosive product.

SHAPES AND SIZES

StayTru comes in a variety of shapes and sizes.

2 x 4 8', 10', 12', 14', 16'

2 x 10 8', 10', 12', 14', 16'

2 x 6 8', 10', 12', 14', 16'

2 x 12 8', 10', 12', 14', 16'

2 x 8 8', 10', 12', 14', 16'

4 x 4 8', 10'

Call today and learn how you can benefit from using StayTru on your next project!

Created from a sustainable wood sourced! Because it is so stable, it is exceptionally easy to maintain, saving both the environment and money!
